- 15.30-16.45** 2nd Oral Session (BASF)
- 17.00-17.30** Poster Session (VIACON)

1st ORAL SESSION. 14.00 – 15.15

- Harmonization of cyclical construction processes: a systematic review.
Jolanta Tamosaitiene, Edmundas Kazimieras Zavadskas, Tatjana Vilutienė
- Methodological approach justifying the concept of cross-border and trans boundary cooperation with other countries and regions.
Leonas Ustinovichius, Jerzy Lewczuk, Artur Czech
- The professional profile of people injured in accidents at work in the polish construction industry.
Bożena Hoła, Mariusz Szóstak
- ICT for resource management and telematics in construction site.
Wojciech Czart, Henryk Gierszal
- Sponsor – PERI

2nd ORAL SESSION. 15.30 – 16.45

- Processes to increase the loads of existing buildings using BIM technology.
Romuald Szeląg
- Assessment of payment systems in construction: Lithuanian case study.
Jolanta Tamositiene, Justinas Augustinas, Danil Shkundalov
- Modernization with BIM technology through scanning building information.
Jovita Čepurnaitė, Leonas Ustinovičius, Mantas Vaišnoras
- Criteria selection to evaluating contractors of cultural heritage objects.
Žydrūnė Morkūnaitė, Valentinus Podvezko, Vladislavas Kutut
- Sponsor – BASF

POSTER SESSION. 17.00 – 17:30

- Sponsor – VIACON
- Identification of factors that affect the accident rate in the construction industry.
Bożena Hoła, Tomasz Nowobilski
- Specifics of real estate development in cultural heritage territories.
Vladislavas Kutut
- Problems in reconstruction projects, BIM uses and decision-making: Lithuanian case studies.
Miroslavas Pavlovskis, Darius Migilinskas, Jurgita Antucevičienė, Irina Urba, Viačeslav Zigmund
- The scheduling of construction work under the assumption of brigade multitasking.
Michał Krzemiński
- Linearised CPM-COST model.
Elżbieta Radziszewska-Zielina, Bartłomiej Sroka
- Facies analysis applied to quarrying. A review on the possible use of sedimentology to increase knowledge and use of ornamental sandstones.
Francesco Giuseppe Rossi, Sergio Madonna
- Scientific association knowledge improvement activities in Construction Technology Management field.
Piotr Nowotarski, Jerzy Paślawski, Łukasz Pluciński
- Thermorheological properties of styrene-butadiene-styrene (SBS) copolymer modified road bitumen).
Mieczysław Słowik
- Preverse logistics supply chains management of construction projects: case study.
Anna Sobotka, Joanna Sagan, Magdalena Baranowska, Ewelina Mazur
